

ScienceDirect

ScienceDirect is a full-text scientific database that provides journals and books in interdisciplinary sciences such as engineering, chemistry, computer science, earth and planetary sciences, energy, mathematics, physics and astronomy, agricultural and biological sciences, environmental science, neuroscience, medicine, dentistry, nursing and pharmaceutical science, veterinary science, arts and humanities, business, management, economics, psychology, and social sciences.

How to begin

Go to http://www.car.chula.ac.th/curef-db/slist.html#general and click **ScienceDirect**. The screen is shown as the following picture.

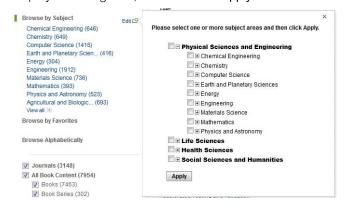

Searching data

- Publications
- 1.1 Browse Alphabetically: Select the first alphabet of publication titles and click an interested title

1.2 Browse by Subject: Select an interested subject or click Edit □ and select one or more subjects, click ⊕ to display subcategories, and then click Apply

In addition, users can select publication types, select to display series volume titles or show full-text available only, and then click Apply.

Please note that • means full-text available, and • means abstract only.

- ② Search
- 2.1 Basic Search: Type words or phrases in All fields, Author, Journal/ Book title, Volume, Issue, or Page boxes, and then click Search button

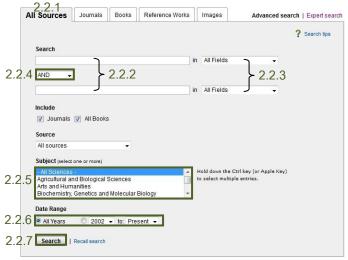

2.2 Advanced Search is divided into search from All Sources, Journals, Books, Reference Works, and Images.

For example, search from all sources

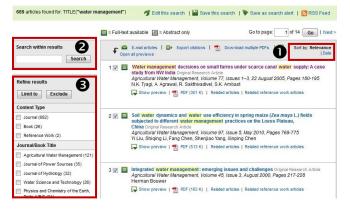

- 2.2.1 Click tab All Sources
- 2.2.2 Type word or phrases in search boxes
- 2.2.3 Select field
- 2.2.4 Select proper operator
- 2.2.5 Select subject (one or more)

2.2.6 Select date range

2.2.7 Click Search.

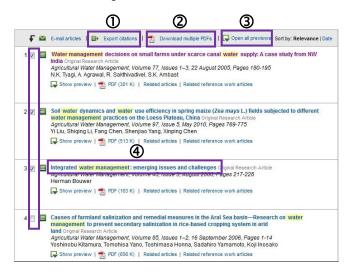

Search results
