Training Consultant

Scopus Demo Day

Bangkok 7th- 9th Nov 2005

Training Objectives

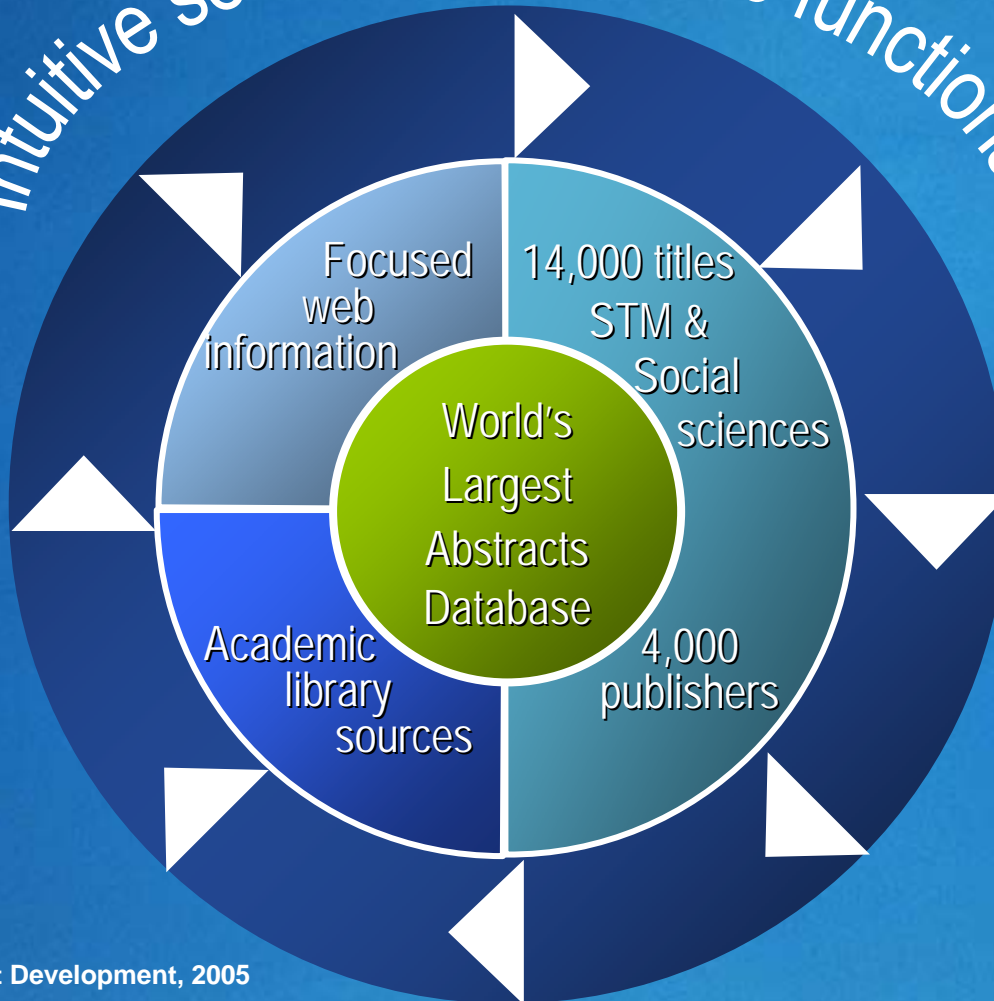

- What is Scopus?
 - *content and coverage*
 - *navigation*
 - *search functionality*
- Learn how to manage searches
 - *Saved searches, E-mail alerts*
- Learn about Scopus' personalisation features
 - *My List, Alert services*
- Scopus' Support services
- Online experience from hands-on Scopus practice

Phylloscopus Collybita

What *is* Scopus?

Intuitive search and browse functionality

Scopus Figures

- 14,200 titles
 - *12,650+ academic journals*
 - *750+ conference proceedings*
 - *600+ trade publications*
- 27 million abstracts (*from 1966*)
- 230 Million references
 - *1996 and onwards (10yrs)*
- Daily Updates

Coverage

- Chemistry, Physics, Mathematics and Engineering
 - *4,500 titles*
- Life and Health Sciences
 - *5,900 titles (100% MEDLINE coverage)*
- Social Sciences, Psychology and Economics
 - *2,700 titles*
- Biological, Agricultural and Environmental Sciences
 - *2,500 titles*
- General Sciences
 - *50 titles*
- Journals may be indexed in one or more subject areas
 - *Explains why total journal number is higher than 14,000*

Scopus Coverage on Thailand Affiliations

Asian Pacific Journal of Allergy and Immunology

Geotechnical Engineering

International Agricultural Engineering Journal

International Energy Journal

Journal of the Medical Association of Thailand

Southeast Asian Journal of Tropical Medicine and Public Health

Content Selection

- Based on demand from the users/librarians/experts
 - *Scientific Advisory Board (20)*
 - *Content Selection Committee (11)*
 - *content@scopus.com*
encouraging all users and librarians to submit titles for inclusion
- Criteria
 - *Peer reviewed (international)*
 - *Timely publication*
 - *English abstracts*
- We do NOT drop journals that we currently cover

Getting Started

The screenshot shows the Scopus website interface. At the top, there is a navigation bar with the Scopus logo, a search bar, and links for 'Sources', 'My Alerts', 'My List', and 'My Profile'. Below this, there is a banner with the text 'Easily find relevant results from over 14,000 peer-reviewed titles.' and a link to 'Library catalogue'. The main search area is titled 'Basic Search' and includes a search box with a dropdown menu for 'Article Title, Abstract, Keywords'. Below the search box, there are options for 'Date Range (inclusive)' and 'Document Type'. The 'Date Range' section has radio buttons for 'Published 1996 to Present' and 'Added to Scopus in the last 7 days'. The 'Document Type' section has a dropdown menu set to 'All'. There are also checkboxes for 'Subject Areas' including All, Health, Life Sciences, Agricultural and Biological Sciences, Chemistry, Physics, Mathematics, Engineering, Earth and Environmental Sciences, Social Science, Psychology, and Economics, Business and Management. Search and Clear buttons are present at the bottom of the search area.

<http://www.scopus.com>

Home Page Features:

- 3 x Search Forms
- Browse Sources
- My Alerts
- My List
- My Profile
- Link to content on Scopus info site and Scopus Labs

Register / Login

SCOPUS navigation bar featuring the SCOPUS logo, a search bar, and buttons for Sources, My Alerts, My List, and My Profile. On the right, there is a 'Register or Login' section with input fields for 'username' and 'Password', a 'Go' button, and a link for 'Athens Login'. Below this are 'Scopus Labs' and 'Help' links.

SCOPUS registration page. The top navigation bar is identical to the previous image. Below it is a 'Quick Search' bar and a 'Search Tips' link. The main heading is 'Registration', followed by a paragraph explaining that registration allows personalization and that existing ScienceDirect users do not need to register again. Below this is a form with required fields: Title (dropdown), First Name, Family Name, and E-mail Address. A section for 'Primary field of interest' includes a list of scientific disciplines with checkboxes.

- Login on every page
- Login notification and logout link appear when logged on

Register / Login *(cont'd)*

- Creation of User Names
 - *Generated from names entered in the First Name and Family Name boxes*
 - *All characters will be in lower case*
 - *No spaces in the user name*
- Recognises ScienceDirect user name / password
- If a user attempts to register with an email address already known to Scopus
 - *Elect to be emailed a User Name or Password reminder*
 - *Edit the registration using another email address*
 - *Register another user name on the duplicated email account*

Benefits of Register / Login

- Alert Services
 - *Search profiles*
 - *Document citation monitoring*
- Saved Searches
 - *Recall to retrieve updated information*
- My List
 - *Stores and displays groups of records from searches*

Search Functionality

- *Search Syntax*
- *Basic Search*
- *Advanced Search*
- *Refine Results*
- *Search History*
- *Search Results*
- *Navigation, including Links*

Types of Search

- **Known Item Search** - searcher knows item is available; uses known info to retrieve it (e.g. author/title etc.).
- **Unknown Item Search** – searcher is unaware/not looking for specific item; uses various terms & synonyms according to his/her info needs (e.g. subject search)
- **Free-text Search** – a.k.a. ‘Basic Search’; usually several fields searched concurrently (e.g. title, author, subject, keywords, etc.). Simple BUT tends to retrieve many irrelevant items
- **Field-specific Search** – a.k.a. ‘Advanced Search’; search usually limited to one or more specific fields. Retrieves more relevant items BUT some expertise required

Search Syntax (1)

Phrase Searching:

- “tourism industry” = exact phrase
- tourism industry = tourism AND industry

Proximity Searching:

- word order **not** specified W/nn
 - *pain W/5 morphine*
- word order specified PRE/nn
 - *neonatal PRE/3 screening*

Search Syntax (2)

Wildcards (truncation):

- variable number of characters *

 - *colo*r* = color, colour
 - *cat** = cat, cats, catatonic, catastrophe, etc.

- fixed number of characters ?

 - *wom?n* = woman, women
 - *catheter?* = catheter, catheters
(**but not** catheterization)

Search Syntax (3)

Boolean Operators:

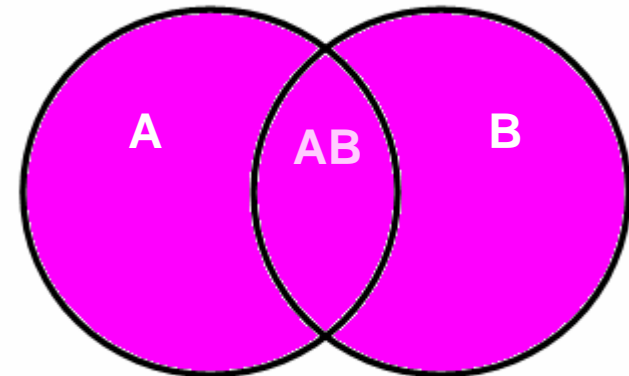

AND • OR • AND NOT

'A' NOT 'B' : A

'A' AND 'B' : AB

'A' OR 'B' : A, B, AB

Search Syntax (3)

Search Field Qualification:

- **FieldName (SearchTerm)**
 - *title (“prion disease”)= single field search*
 - *title-abs-key (koala) = compound field search*
 - *When no field name is specified, all searchable fields are assumed*

Basic Search

The screenshot shows the SCOPUS Basic Search interface. At the top, there is a navigation bar with buttons for Search, Sources, My Alerts, My List, and My Profile. A user is logged in as Frances Blaindon. Below the navigation bar, a banner states "Easily find relevant results from over 14,000 peer-reviewed titles." The main search area has three tabs: Basic Search (selected), Advanced Search, and Author Search. The search form includes a "Search for:" field with the text "zinc deficiency" and a dropdown menu for "in" set to "Article Title, Abstract, Keywords". Below this is a second search box with "AND" selected in the dropdown. The "Limit to:" section includes "Date Range (inclusive)" with "Published" selected, "1996" in the start year dropdown, and "Present" in the end year dropdown. There is also a "Document Type" dropdown set to "All". A "Subject Areas" section has a grid of checkboxes for various fields, with "All" checked. Search and Clear buttons are provided for both the main search and the limit sections.

Enter one or more search terms over two search boxes

Restrict search by field, date, subject area and/or document type

Abstract Page

The screenshot shows the Scopus interface for an abstract page. At the top, there are navigation buttons for Search, Sources, My Alerts, My List, and My Profile, along with Scopus Labs and Help. A Quick Search bar is present. The article title is "Trace Elements and Electrocytes" from Volume 18, Issue 3, 2001, Pages 139-141. The article title is "A test in the diagnosis of marginal zinc deficiency in the geriatric people: Serum zinc binding capacity" by Arcasoy, A., Yildirmak, T., Yildirmak, Y., Tunç, S., Sinav, B., and Kutluay, L. The abstract text is visible, starting with "Background: Marginal zinc deficiency has been the matter of interest in recent years...". On the right side, there is a "Cited By" section with a light blue header, which is circled in orange. It states "This article has been cited 4 times in Scopus: (Showing the 3 most recent)" and lists two citations: one by Turkoglu, O., Saracoglu, S. (2004) and one by Soyлак, M., Akkaya, Y. (Application of the solid-phase extraction procedure on chromatographic mini column filled with Diaion).

A test in the diagnosis of marginal zinc deficiency in the geriatric people: Serum zinc binding capacity

[Arcasoy, A.](#), [Yildirmak, T.](#), [Yildirmak, Y.](#), [Tunç, S.](#), [Sinav, B.](#), [Kutluay, L.](#)

Hostes Rona Altinay sok, Tesvikiye, TR-80200 Istanbul, Turkey

Abstract

Background: Marginal **zinc deficiency** has been the matter of interest in recent years and investigations are concentrated on it. Subjects with insufficient **zinc** consumption diet demonstrate systemic symptoms as reduced appetite, growth retardation in preschool children; immune **deficiency**, dermatological problems, delayed wound healing in geriatric population. In marginal **zinc deficiency, diagnostic** laboratory criteria are in normal range. Objective: For this reason, it is difficult to diagnose marginal **zinc**

Cited By

This article has been cited 4 times in Scopus:
(Showing the 3 most recent)

. [Turkoglu, O.](#), [Saracoglu, S.](#)
Monitoring copper, nickel, cobalt, lead, cadmium, manganese and chromium levels in house dust samples from Kayseri, Turkey

Abstract Page (cont'd)

Objective: For this reason, it is difficult to diagnose marginal **zinc deficiency**. Argemi et al. [1988] proposed to measure serum **zinc**

Conclusion: In conclusion, serum **zinc** binding capacity seems to be an appropriate method for the **diagnosis** of marginal **zinc deficiency**.

Document Citation Alerts

- Perform a search
- Click Abstract + Refs button of article to track
- From the Abstract Page, click Alert Me link
- Name the alert, verify the email address and choose frequency and e-mail format before clicking Submit button

The screenshot shows the Scopus website interface for adding a document citation alert. The page title is "Add a Document Citation Alert". Below the title, there is a brief description: "A Document Citation Alert will keep you informed when a document cites this document. You can schedule it to run daily, weekly or monthly. You will receive an e-mail message with a link into Scopus to access these new documents." A "Privacy Policy" link is provided. The form includes several fields: "Document:" with a dropdown menu showing "Heinitz, M." and the article title "Disturbances of taste and smell and possible involvement of zinc deficiency | [Geschmacks- und geruchssinn bei zinkmangel]. (2001) *Arztezeitschrift für Naturheilverfahren*, 42 (1), pp. 44-48."; "Name of Alert:" with an empty text box; "E-mail Address:" with the value "frances.bluhdom@bigpond.com"; "Frequency:" with a dropdown menu set to "Weekly"; and "E-mail Format:" with radio buttons for "HTML" (selected) and "Text". There are "Submit" and "Cancel" buttons at the bottom right. The top navigation bar includes "Search", "Sources", "My Alerts", "My List", and "My Profile" buttons, along with "Scopus Labs" and "Help" links. A "Quick Search" box and "Go" button are also visible.

- ▶ [New Releases](#)
- ▶ [List of Publishers](#)

Welcome to the Scopus™ Info Site. Scopus, the world's largest abstract and indexing database offers you access to 14,000 peer-reviewed titles from more than 4,000 international publishers. In development for more than two years with more than 300 librarians and researchers, Scopus is designed to bring you expert results even if you're not an expert researcher.

Inside SCOPUS™

Keep up to date with [Inside Scopus](#), the new quarterly newsletter for researchers brought to you by the Scopus Team.

We've divided the site into different sections:

- [About Scopus](#) - More information about Scopus development, content and functionality
- [Scopus News](#) - Press releases and product updates
- [For Librarians](#) - Information and resources to help you get the most out of Scopus at your institute
- [For Users](#) - Information you can pass on to your users about Scopus

Interested in a Scopus trial? Please [contact our sales team](#) for more information.

Inside Scopus Newsletter

The screenshot shows the top portion of an email newsletter. The header features the 'Inside SCOPUS™' logo on the left and the handwritten-style text 'wouldn't you?' on the right, set against a background of a blue sky with white clouds. Below the header, the issue information 'Volume 1 Issue 2 - November 2004' is displayed. The main content area includes a welcome message, a 'QUICK LINKS' section with four hyperlinks, a paragraph about the newsletter's purpose, a paragraph inviting feedback, and a link to 'The Scopus Team'. A hand-drawn sun icon with the URL 'www.scopus.com' is positioned to the right of the feedback paragraph. At the bottom, a dark blue bar contains the text 'IN THIS ISSUE:' followed by a list of four hyperlinks.

Inside
SCOPUS™ wouldn't you?

Volume 1 Issue 2 - November 2004

Welcome to Inside Scopus - the quarterly newsletter for researchers brought to you by the Scopus team.

With Inside Scopus, you'll receive the latest news about Scopus as well as learn more about certain features that will help you in your research.

We hope you find this newsletter useful and welcome any suggestions and feedback for future issues.

Scopus Online Tutorials

- Step-by-step and interactive
- Available 24/7
 - *under HELP on Scopus*
- Require a JavaScript enabled browser and Macromedia Flash Player (*latest version*)

SCOPUS

About Scopus Tutorials

A number of tutorials are available from the online Help. In order to view the tutorials, you must have JavaScript™ enabled for your browser, and you must have the latest version of the Macromedia Flash™ Player, which you may download free of charge from the Macromedia® website. Click on the **Get Macromedia Flash Player** icon for downloading instructions.

If you are using an assistance device, such as a screen reader, your device automatically reads a text version of the tutorials.

Notes: If you try to access the tutorials, but you do not have JavaScript enabled or you do not have the correct version of the Macromedia Flash Player, the application prompts you to view a text version of the tutorial.

- [Scopus Tutorial Menu](#)

This is a list of links to different tutorials regarding the use of Scopus.

- [I am looking for a particular article](#)

This tutorial explains how to find a specific article of interest.

- [I want to run the same search every month](#)

This tutorial explains how to store a search request so you can re-run the search at another time.

- [I want to investigate a new topic](#)

This tutorial explains how to perform a topic search.

- [I want to trace the developments since a particular article was published](#)

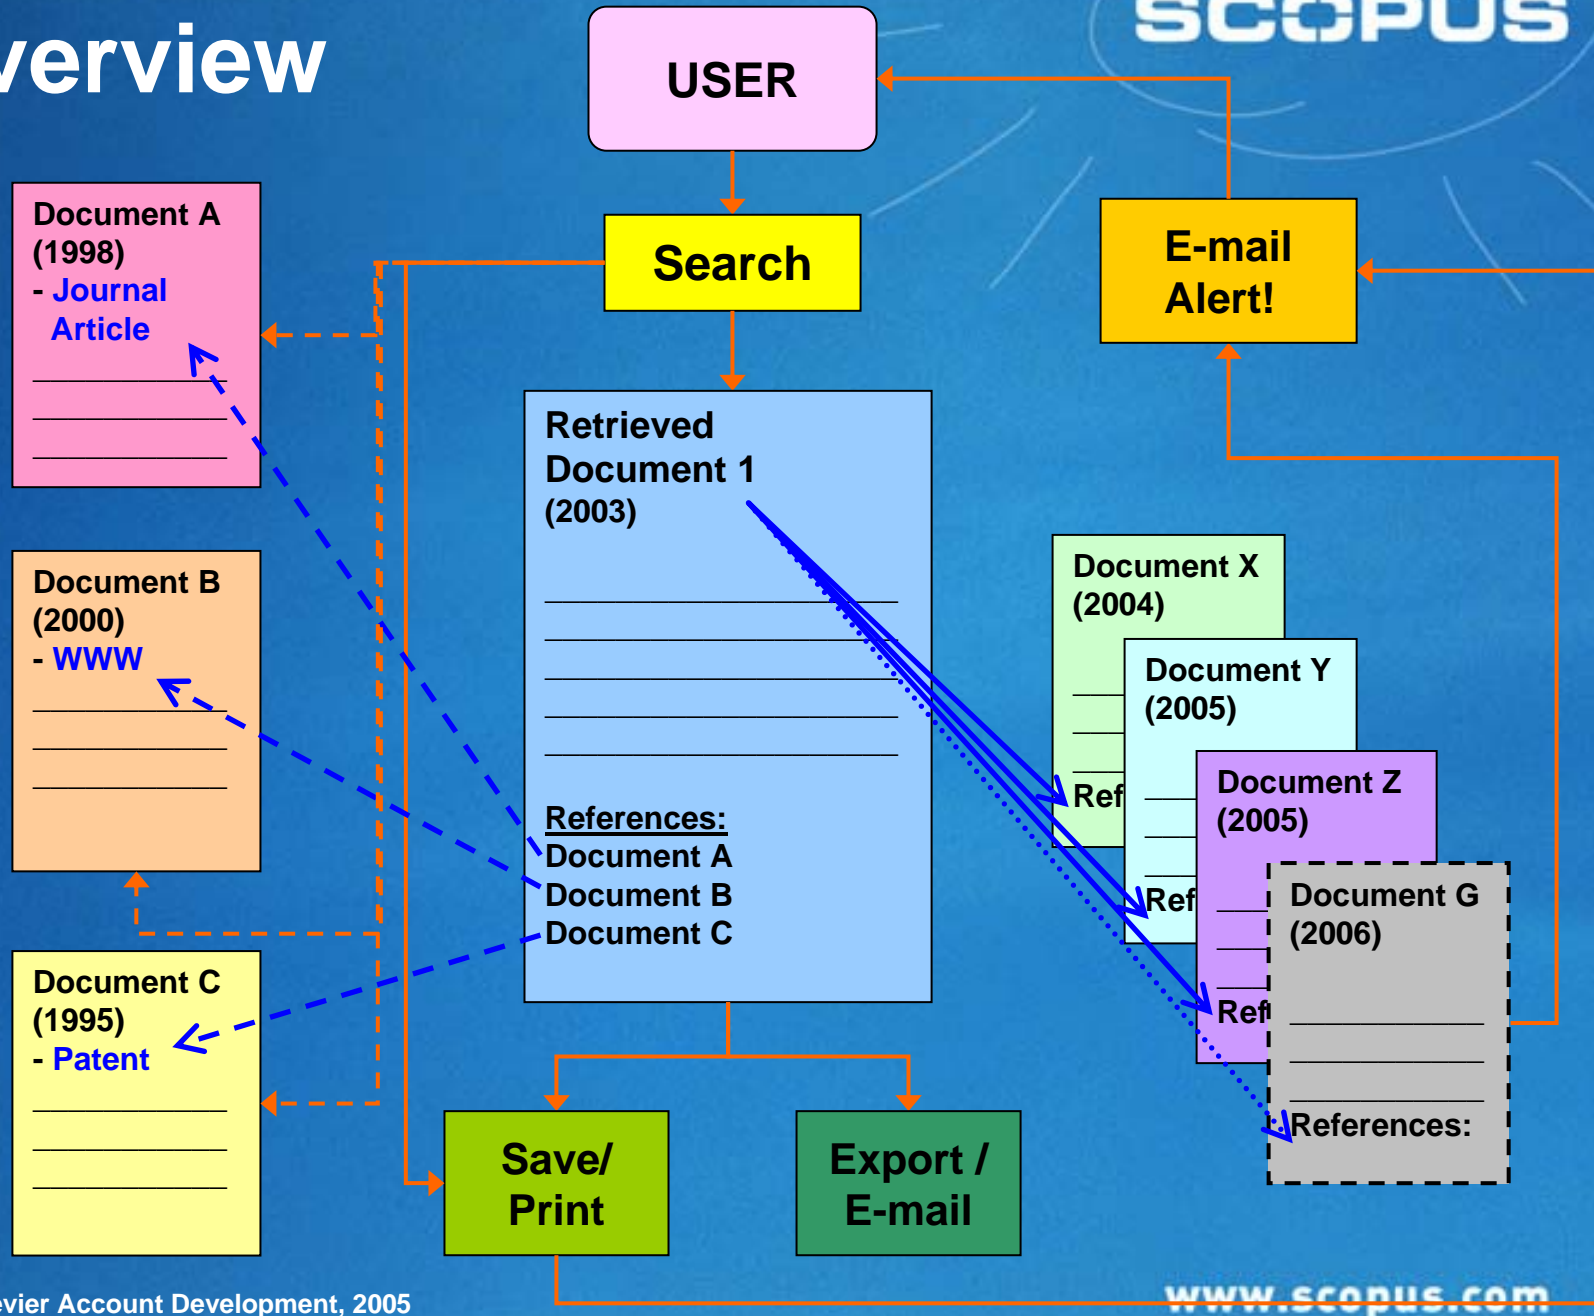

This tutorial explains how to trace the developments in a subject area since a particular article was published.

Overview

Wouldn't You? ...

1. Librarians like you helped develop it and users who've tested it say they find more, fast
2. Scopus increases the visibility and usage of your library's full text investments
3. It's the biggest but it doesn't feel like it – quality content plus transparent navigation
