

"It's not about searching it's all about finding"

Gabriel Yeo Training Consultant

Chulalongkorn University 8th June 2006

SCCPUS

Training Objectives

- Content and coverage of Scopus
- Learn about managing searches
 - Saved searches, E-mail alerts
- Learn about Scopus' personalisation features
 - My List, Alert services
- Introduction and details to Citation Tracker Tool
- An overview of the Author Identifier
- Gain online experience from hands-on Scopus practice

Phylloscopus Collybita

What is Scopus?

- One single starting point for research
 - Search and navigation tool across scientific literature
- Accesses a wide range of resources, but no duplication
 - Peer-reviewed literature
 - journals, conference proceedings, trade publications, and increasingly other types of content
 - The scientific Web
 - including scientists' homepages, patent information, pre-print servers, Open Access resources
- Covers all disciplines within science and social science
- Enables citation linking between different fields of study
- Reveals new connections in the literature

Coverage

Chemistry, Physics, Mathematics and Engineering

4,500 titles

Life and Health Sciences

- 5,900 titles (100% MEDLINE coverage)
- Social Sciences, Psychology and Economics
 - 2,700 titles
- Biological, Agricultural and Environmental Sciences
 - 2,500 titles
- General Sciences
 - *50 titles*
- Journals may be indexed in one or more subject areas
 - Explains why total journal number is higher than 14,200

Scopus Coverage on Thailand Affiliations

- No of articles found in affiliation with Thailand in Top 160 Journals is 24,158, of which 7, 223 of them cannot be found in WoS.
- Inclusion of 6 Thailand Journals with 12,527 articles, which are all not found in WoS.

Scopus Coverage on Thailand SCOPUS Affiliations

Asian Pacific Journal of Allergy and Immunology

Geotechnical Engineering

International Agricultural Engineering Journal

International Energy Journal

Journal of the Medical Association of Thailand

Southeast Asian Journal of Tropical Medicine and Public Health

Abstract	(2006) Journal of Financial	
	Abstract + Refs	
Using a large sample of Japanese firm level data, we find that Japanese banks act primarily in the short term interests of creditors when dealing with firms outside bank groups. Corporate control mechanisms other than bank oversight appear necessary in these firms. When dealing with firms in bank groups, banks may act in the broader interests of a range of stakeholders, including shareholders. However, our findings are also consistent with banks "propping up" troubled bank group firms. We conclude that bank oversight need not lead to value maximizing corporate governance .	. <u>Kato, T. , Kubo, K.</u> CEO compensation and firm performance in Japan: Evidence from new panel data on individual CEO pay

What is the Citation Tracker?

- Citation Tracker is a feature within Scopus

 Released on 15 December 2005
 Officially launched in January 2006

 Enables users to track and evaluate research performance

 For evaluation purposes

 - For navigation purposes

How is it used?

- User feedback shows that the main tasks are:
 - Evaluating a specific author
 - Evaluating a group of authors
 - Evaluating a specific article
 - Evaluating a group of articles, or a journal volume/issue
 - Identifying hot topics in a new subject area
 - Identifying cross-disciplinary impact, ie: what subjects are being cited by other subjects
 - Identifying who or what is hot or not
 - Finding related articles to expand your research

Identify area of interest

Documents in overview

1)

Stambrook P.

The comparative mouse genomics centers consortium cell cycle and DNA repair variants, national institute of environmental health sciences, national institutes of health, department of health and human services, June 1-3, 2004, at the Austin Hilton, Austin Texas (2005) *Mutation Research - Fundamental and Molecular Mechanisms of Mutagenesis*, 570 (2), pp. 289-301.

2)

Myer D.L., Bahassi E.M., Stambrook P.J. **The Plk3-Cdc25 circuit** (2005) *Oncogene*, 24 (2), pp. 299-305.

3)

Shao C., Deng L., Chen Y., Tischfield J.A., Kucherlapati R., Stambrook P.J. **Mlh1 mediates tissue-specific regulation of mitotic recombination** (2004) *Oncogene*, 23 (56), pp. 9017-9024.

4)

Hong Y., Stambrook P.J. Restoration of an absent G1 arrest and protection from apoptosis in embryonic stem cells after ionizing radiation

Practice Exercises

 Create a list of 20 most highly cited publications from Chulalongkorn University
 Create a bibliography list for the above papers using APA style
 Conduct citation analysis on the selected papers

Author Identifier: Why?

- Author searching in A&I Databases is hampered by two serious problems:
 - How to distinguish between an author's articles and those of another authors sharing the same name?
 - How to group an author's articles together when his or her name has been recorded in different ways? (e.g. Stambrook, P and Stambrook, P.J.)

 These problems can result in retrieving incomplete or inaccurate results.

Solving the Problem

We have approached solving these problems by using the data available in the publication records such as...

- Author Names
- Affiliation
- Co-authors
- Self citations
- Source title
- Subject area

...and used this data to group articles that belong to a specific author.

So how does Author Identifier work?
